

Screening Consent Form

The Ages and Stages Questionnaire-3 (ASQ-3) is a developmental screening tool that asks questions about your child's overall and social emotional development. You will be asked to answer questions about some things your child can and cannot do. The questionnaire includes questions about your child's communication, gross motor, fine motor, problem solving, and personal social skills.

Help Me Grow offers these screenings to help identify your child's strengths as well as any areas where your child may need support. The screening should take about 10-20 minutes to answer questions about your child.

Your individual information is protected to ensure confidentiality. Information is entered on a web-based database that is secure and password protected. Identifying information from the screen will be limited to staff related to the Great Start Readiness and Help Me Grow programs. You will be provided with a copy of the results.

I have read the above description and consent for the Great Start Readiness Program, Help Me Grow, and insert the name of your school to screen my child(ren).

☐ Yes, I do wish to participate

☐ No, I do NOT wish to participate
